

Accreditation

AVISTA OIL Deutschland GmbH

To participate in the light-login process, the company picking up or delivering goods must be accredited.

Accreditation requires compliance with the following requirements.

- Compliance with the Minimum Wage Act (MiLoG) is ensured. Even for cabotage trips in accordance with the MiLoG, drivers employed by foreign companies must be compensated in accordance with the Minimum Wage Act.
- Compliance with the provisions of the Ordinance on Cross-Border Road Freight Transport and Cabotage (GüKG/KabotageV) and all applicable legal requirements.
- Compliance with statutory social security regulations.
- The pick-up driver must ensure that the vehicle technology used complies with legal requirements and represents state of the art. For tractor units, at least the Euro VI emissions standard is required.
- The refinery's behavioral and safety rules must be followed.
- The drivers must have sufficient language skills to communicate with refinery employees.
- The vehicles have adequate insurance coverage
- Conducting a business partner check on the freight forwarders used based on the following sanctions lists in their current versions:
 - US_DPL U.S. Bureau of Industry and Security – Denied Persons List
 - US_SDN U.S. Treasury – Specially Designated Nationals List
 - EU_CFSP Common Foreign & Security Policy
 - DE_IRAN Iran Embargo Regulation (BAFA)

Optional: JCH_SECO SECO List (Switzerland), GB_BOE Bank of England – Sanction List

The business partner review must be conducted once per quarter.

AVISTA is authorized to inspect the vehicles and the drivers employed to ensure compliance with the aforementioned requirements. Proof of compliance must be provided to AVISTA upon request.
